

SILVER DENOUNCED BY MR. CARLISLE THE SECRETARY ON THE FINANCIAL QUESTION.

Head of the Treasury Department Addresses An Immense Audience At Chicago—Claims a Complete Commercial Revolution Would Follow Free Coinage of the White Metal.

Chicago, April 16.—The audience that filled the Auditorium Wednesday night to hear Secretary Carlisle speak upon the currency question was in some respects one of the most remarkable gatherings that has ever been seen in Chicago. Although the meeting was held under the auspices of organized labor, bankers, business men, professional men, students, politicians, theorists and men of every walk of life were there to hear the man by virtue of his high position at the head of the government's financial portfolio is eminently qualified to explain the merits of the contention between the advocates of gold and silver. The secretary's speech was in part as follows:

He began by showing how inevitable it was that the wage-workers would be the sufferers from a business or industrial depression, no matter whether it resulted from a depreciated and fluctuating currency or from other causes. He went on:

"Whether we shall or shall not have a long period of financial, commercial and industrial disturbance in this country, and whether labor shall be deprived of permanent employment, or be partially employed and inadequately paid, are questions directly and necessarily involved in the demand now seriously made by many of our fellow-citizens, that the United States, without the co-operation of any other government in the world, and in opposition to the established policy of every other great civilized and commercial nation, shall authorize the free and unlimited coinage of legal tender silver at the ratio of 16 to 1, notwithstanding the true market ratio between the two metals is about 31 to 1; or, in other words, that the United States alone shall declare by law that sixteen ounces of silver are equal in value to one ounce of gold, when it is an indisputable fact everywhere recognized that in all the markets of the world, in silver standard countries as well as in gold standard countries, sixteen ounces of silver are worth only about one-half as much of the necessities of life.

"The naked proposition is that the United States shall coin, at the public expense, for the exclusive benefit of the individuals and corporations owning the bullion, all the silver that may be presented at the mints into dollars containing 371 1/4 grains of pure silver, or 412 1/2 grains of standard silver, worth intrinsically about 51 or 52 cents, deliver the coins to the depositors of the bullion and compel all the other people in the country to receive these coins at a valuation of 100 cents each in the payment of every kind of obligation recognized by the laws of the land, except only in cases where the prudent capitalist has taken the precaution in advance to contract for payment in gold or its equivalent.

"To say nothing of the gross partiality and manifest injustice of such a policy, its immediate effect would be to contract our currency to the extent of about \$620,000,000 by stopping the use of gold as money and putting a premium upon the coins of that metal equal, or about equal, to the difference between the intrinsic value of the gold dollar and the intrinsic value of the silver dollar. Gold coins would at once become a commodity and would be bought and sold by speculators in the market just as they were during the war when we had a depreciated paper currency. The value of the silver dollar would fluctuate from day to day, moving up and down with the rise and fall of the commercial price of the bullion contained in it, as the Mexican dollar does now, and the premium on the gold dollar would of course fluctuate to the same extent, thus affording an opportunity to bullion brokers and speculators to buy and sell it at a profit. It would cease to be used as money, because no man would pay his debt in gold dollars, or in paper redeemable in gold dollars, worth 100 cents, when the law permitted him to pay it in silver dollars, worth only 51 or 52 cents each. The sudden withdrawal of \$620,000,000 from the volume of currency in the country would undoubtedly produce a financial and industrial disturbance far more disastrous to the interests of labor than has ever been experienced in our history.

"While the sudden exclusion of \$620,000,000 in gold from our stock of money would itself be sufficient to create a financial disturbance unparalleled in the history of this or any other country, the situation would be very greatly aggravated by the fact that the purchasing power of all the remainder of our currency would be suddenly reduced about one-half; we should have only about two-thirds as much currency as we have now, and at the same time it would be so depreciated in value that it would require about twice as much as we have now to transact the business of the country, provided there should be any business to transact.

"The attempt to maintain what is called the double standard of value—that is, the attempt to keep the legal tender coins of the two metals, gold

and silver, in use as money at the same time upon the ratio of value fixed by law—has repeatedly been made in every civilized country in the world and it has failed again and again in every one of them and it requires no gift of prophecy to foresee that it must continue to fail so long as self-interest constitutes a controlling factor in the business affairs of men.

"When the great civil war began, we had no silver in circulation, except the subsidiary coins authorized by the act of 1853, but we had gold, and paper redeemable in gold, and it was not long ere we had another practical illustration of the natural law that the inferior or less valuable legal tender currency will expel the superior or more valuable legal tender currency from circulation. Early in 1862 congress, most unwisely, in my opinion, authorized the issue of legal tender paper to circulate as money, and the usual and inevitable result followed. Gold ceased to be used as money, and the banks and the treasury having suspended specie payments, the country was flooded with a depreciated currency worth at times less than 50 cents on the dollar. Later on, fractional paper currency was authorized by congress, and the effect of this was to drive out of circulation even the light-weight subsidiary silver coins, and for many years not a single piece of metallic money of any kind was used by the people, except on the Pacific coast, where gold continued to circulate at its actual intrinsic value, without regard to the fictitious value which the acts of congress attributed to the legal tender paper.

"We have now about \$620,000,000 in gold, and \$413,000,000 in full legal tender silver, besides \$78,216,677 in subsidiary silver coins, which are legal tender in payments not exceeding \$10, and the real question for the people to decide is whether they will continue to use the coins of both metals or adopt a monetary system which always has and always will drive one of them out of the country.

"The annual production of silver in the world is about \$216,000,000 at our coinage rate, and the annual capacity of our mints to coin standard silver dollars is only about \$40,000,000. Last year we coined \$43,933,475 in gold, \$9,069,480 in silver; so, if our mints were devoted exclusively to the free coinage of standard silver dollars the addition to our stock of metallic money would be about \$15,000,000 less every year than it is now; and it would not be good money after it was coined.

"More than fifteen years would elapse before we could at this rate coin enough depreciated silver dollars to supply the place of the good gold dollars expelled from the country, and, in the meantime, a complete revolution would have to be effected in our commercial relations with other nations, and in all our domestic business affairs, including a readjustment of the wages of labor, the prices of commodities, the rates of municipal, state and federal taxation, charges for transportation and every other matter involving the use of money or credit.

"Money received for wages, like money received on every other account, is valuable only to the extent that it can be exchanged for other commodities, and it is scarcely necessary to suggest that a dollar worth 50 cents will not purchase as much in the market as a dollar worth 100 cents. To call a dime a dollar would add nothing whatever to its intrinsic value or to its purchasing power. When wages are paid in a depreciated currency the rates of wages must be increased in proportion to the depreciation of the money and in proportion to the increase in the prices of other things, or the laborer will suffer a loss. If there has been a single exception to this rule in this or in any other country my investigations have not enabled me to find it, and I do not believe one can be found.

"If free and unlimited coinage of legal tender silver at the ratio of 16 to 1 is established in this country a very large part of the money deposited in various kinds of savings institutions will not even be repaid in depreciated silver, but will be wholly lost, because such a reckless monetary system would precipitate a financial panic, which very few, if any, of the depositors could survive. Payment of all our obligations held abroad would be demanded in gold at once; every investment of foreign capital in this country would be instantly withdrawn; every man who owed a debt at home or abroad would be called upon to pay it; all depositors in banks and other institutions would want to withdraw their money at the same time; no loans could be negotiated and no credit would be given, because no man would lend money or sell property on time when he knew with absolute certainty that he would be paid in a depreciated currency. Creditors would not wait for the actual passage of a free silver law, but as soon as such a measure had received the approval of the people at an election they would demand their money, and if not paid they would enforce its collection by judicial proceedings and the forced sale of property.

"Less than three years ago you saw our financial, commercial and industrial affairs violently disturbed by the fear that the government would not be able to maintain gold payments, and that our currency would descend to a silver basis. You saw the operations of industry interrupted, banks failing, great commercial houses unable to meet their obligations, credit seriously impaired, mills and factories closed, and thousands of laborers thrown out of employment, and a state of panic and business disorder prevailing in every part of

HE TELLS STORIES ABOUT THE HOME

KANSAS CONGRESSMAN MAKES
SERIOUS CHARGES.

General Franklin's Management of the Soldiers' Retreat at Leavenworth Is Said to Be Grossly Improper—Bering Sea Treaty Ratified—General Capital City News.

Washington, April 16.—In the house Wednesday Mr. Hull (rep., Iowa), chairman of the committee on military affairs, called up the resolution for the reappointment of William B. Franklin of Connecticut, Thomas J. Henderson of Illinois, George L. Beale of Maine and George W. Steele of Indiana as members of the board of managers of the national soldiers' homes.

During the consideration of the resolution Mr. Blue (rep., Kas.) made a sensational speech against Gen. Franklin, charging him and Col. Smith (for whom he said Gen. Franklin was responsible) with cruel and brutal treatment of the inmates of the home at Leavenworth, Kas. He moved to substitute the name of Gen. O. O. Howard for that of Gen. Franklin. Mr. Blue said his purpose was to free the Leavenworth home from the drunken and brutal man now at its head. He read a telegram from E. J. Anderson and others urging him to fight Gen. Franklin's reappointment and telling him that 60,000 soldiers in Kansas were behind him. He claimed that Gov. Smith maintained the biggest saloon in Kansas under the shadow of the flag the soldiers fought to save. Last year, he said, the profits of the beer hall alone were \$13,000.

"Have you any charges to make against the personal character of Gen. Franklin?" asked Mr. Hill (rep., Conn.). "I charge," replied Mr. Blue, with great deliberation and emphasis, "that the inspector's reports show that Gen. Franklin is either grossly negligent and incompetent or that he is not honest. He knows of the saloons; he knows of Smith's conduct, and if these reports are true he holds in his hands, in violation of the law, trust funds that should have been turned into the general fund."

Mr. Blue also read an affidavit charging that a contract existed whereby the Keeley cure was given to inmates for \$6, while outsiders were charged \$20.

With the understanding that a vote should be had at 3 o'clock today, the house adjourned.

Waller Appears at the Capital. Washington, April 16.—Ex-Consul Waller of Madagascar came over to Washington from his home in Baltimore Wednesday night, and tomorrow will go to the state department with his stepson, Paul Bray, and seek an interview with Secretary Olney. Bray was deported from Madagascar to Zanzibar at the same time that Waller was incarcerated, and he will claim damages for illegal deportation. A restoration of Waller's valuable concessions will be urged also.

Bering Sea Treaty Ratified. Washington, April 16.—The senate in executive session ratified the Bering sea arbitration treaty. The treaty provides for a commission to arbitrate the claims by citizens of England against the United States for seizures of vessels engaged in the capture of fur seals prior to the Paris award.

Nomination of McChesney Confirmed. Washington, April 16.—The senate confirmed the nomination of Charles E. McChesney of Hartington, Neb., to be agent for the Indians of the Rosebud agency in South Dakota.

A. P. A.'S OPPOSE MCKINLEY.

He Discriminated Against Their Members in Ohio—Reed All Right.

Boston, Mass., April 16.—The following has been issued by the national advisory board of the American Protective association:

"After several months painstaking investigation as to the standing and record of these candidates on our principles and American questions the executive committee of the national advisory board reached these conclusions:

"That the national advisory board adopt no candidate as the candidate which the order should support, as to do so at this time would be most unwise and impolitic. The committee found to be true the charge made against one of the candidates—viz., ex-Gov. McKinley—of discriminating in his appointments in favor of Romanists and against American Protestants. Of the other candidates the committee were satisfied with their Americanism and sympathy with the principles of the order. Concerning the charges made against Thomas B. Reed, the committee found them to be groundless. It is also a notable fact that the only state conventions that have thus far incorporated principles of our order in their platform are the states that are now booming Mr. Reed, and on such platform if nominated he must stand."

Old Michigan School Burned. Saginaw, Mich., April 16.—The Central school building on the west side was destroyed by fire Wednesday. It was built in 1868 at a cost of \$90,000. Building and contents were insured for \$47,000.

BRADLEY AND REED GET THEIR STATES

KENTUCKY AND MAINE GO FOR
HONEST MONEY, TOO.

Democrats In Convention at Sedalia Declare For Free Silver—Governor Bradley Rules Kentucky Republican Convention—Doings of Other Political Bodies In Various City.

Louisville, Ky., April 16.—The republican state convention today endorsed Governor Bradley for president and adopted the single gold standard platform.

Portland, Me., April 16.—The republican state convention today adopted the single gold standard platform and endorsed Speaker Reed for president.

Sedalia, Mo., April 16.—The free-silver cause was given a big boost by the Missouri democracy Wednesday, the 535 delegates being almost unanimously in favor of the free and unlimited coinage of silver at 16 to 1.

A test of the sentiment of the convention was shown in a vote upon a resolution to instruct delegates to the Chicago convention to refuse to vote for any person for temporary chairman of the Chicago convention who is not a pronounced advocate of free coinage of silver at 16 to 1. The resolution was carried by a vote of 530 to 5.

Gov. Stone offered a resolution indorsing Bland for the democratic nomination for the presidency, and the convention indorsed it. Mr. Bland addressed the convention, withdrawing his name as a candidate for delegate to the Chicago convention and agreed to be a presidential candidate. He requested that the efforts of all be used to bring back the democratic party to its old principles.

Gov. W. J. Stone, Senator George G. Vest and F. M. Cockrell were elected delegates-at-large to the Chicago convention by acclamation. George M. Allen of St. Louis was named to take the place of Mr. Bland. All are pronounced free-silver men.

The resolutions, after treating of state matters and upholding the state administration, takes up the money question. The plank on that question follows:

"Resolved, That we demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other government.

"Resolved, That we are irrevocably opposed to the substitution for metallic money of a panic-breeding, corporation, credit currency based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America.

"Resolved, That we are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by the law to the government of redeeming such obligation in either silver coin or gold coin.

"Resolved, That we are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and especially are we opposed to placing the treasury of the government under the control of any syndicate of bankers and the issuance of bonds to be sold by them at an enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism."

The delegates were instructed to vote as a unit.

GOV. BRADLEY RULES.

Has Entire Control of the Kentucky Republican Convention.

Louisville, Ky., April 16.—William O. Bradley is the republican boss of Kentucky. He triumphed at the state convention Wednesday. The McKinley hosts were buried. At noon the A. P. A.'s held a meeting which was addressed by Judge J. H. D. Stevens of St. Louis. He told them that it was their duty to defeat William McKinley for the presidency not only in Kentucky, but in every state.

It was 2:30 in the afternoon when the chairman of the state central committee, John W. Yerkes, called the state republican convention to order. There was a great deal of wrangling over the appointment of the committees, but they were finally completed and adjournment was taken until evening. In the committees, including the committee on resolutions, the Bradley people have a majority, which means that a platform declaring in favor of a gold standard will be adopted.

It was 11 o'clock when the credentials committee presented its report. The principal contests were on general wards of this city and Jefferson county, outside of Louisville, which were decided by giving one-half vote to each side. The report was adopted without opposition. The convention refused to grant the committee on resolutions an extension of time, and, although some of the members had gone to the hotel, they were ordered to proceed to the preparation of its report. In the meantime the nominating speeches for delegates for the state-at-large were made. Motions to adjourn were voted down.

A dozen or more nominating speeches were made and still the resolutions committee was unable to make its report. The convention then, at 12:10

o'clock, adjourned until 9 a. m. today.

Expected to Favor McKinley. Trenton, N. J., April 16.—Preparations are nearly completed for the holding the republican state convention in this city to-morrow to elect four delegates at large and two delegates each from the eight congressional districts in the state to the national convention at St. Louis. The delegates-at-large will be United States Senator William J. Sewell, of Camden; Garret A. Hobart, of Passaic; Chairman Franklin Murphy, of Newark, and ex-Congressman John Kean of Elizabeth. It is expected that the convention will instruct for McKinley.

Miners Favor Free Silver. Columbus, O., April 16.—The national miners' convention will elect officers today. Ex-President John McBride, of the American Federation of Labor addressed the convention. Resolutions were adopted favoring free silver, and urging the adoption of cash payments and abolishing of company stores. A resolution was adopted favoring a rate of 62 1/2 cents summer and 70 cents winter for mining in the Wilmington, Ill., coal field, 15 cents per ton to be credited to brushing and keeping roads.

All Rallying for Reed. Portland, Me., April 16.—Not since the convention which chose the delegates to support the late James G. Blaine in 1884 for the presidency have the republicans of Maine gathered in such force as they have in this city in anticipation of the selection of delegates for the national convention at St. Louis in June. On every man's coat is a Reed button; in every mouth is the name of Maine's favorite son. It is understood that the platform will be brief but to the point, and will advocate sound financial policy, reciprocity, and high tariff.

For Altgeld and Free Silver. Springfield, Ill., April 16.—The democratic county convention was remarkable for the radical nature of the resolutions which were passed indorsing free silver at 16 to 1, practically indorsing the single tax, criticising the Supreme court and urging the amendment of the constitution to enable the legislature to pass laws for the protection of miners. Gov. Altgeld's administration was strongly indorsed and his renomination favored.

Denounced President Cleveland. Detroit, Mich., April 16.—President Cleveland was severely criticised by the leading democrats of the city in a public meeting Tuesday night. Ex-Chief Justice John W. McGrath of the Supreme court of Michigan said it was time to deliver the party from its enemies. Ex-Judge Miner also criticised Cleveland, and ex-Congressman Tarsney said they wanted a man "who will not make a law unto himself and override the constitution."

Republican Women Meet.

Decatur, Ill., April 16.—The first republican convention of women ever held in Macon county assembled here Wednesday. Mrs. Mary E. Haworth presided, and Mrs. S. H. Able was secretary. Delegates were elected to attend the state convention of republican women at Springfield, April 28, to name a woman candidate on the state ticket for trustee of the University of Illinois.

Russell Wants One Plank.

Lansing, Mich., April 16.—The Rev. John Russell, the father of the prohibition party, made a strong speech at the state conference Wednesday in favor of having the platform declare for prohibition and nothing else. Ex-Gov. St. John, of Kansas, at a mass-meeting strongly urged that a free silver plank be adopted, declaring that such action would double the prohibition vote.

Free-Silver Plank Adopted.

Tacoma, Wash., April 16.—The silver men in the Democratic state convention made an all-day fight for a silver platform and a silver delegation instructed to vote for a free-coinage candidate for President. President Cleveland's administration was indorsed. A free-silver resolution was adopted, but the delegates were not instructed.

North Dakota Republicans.

Fargo, N. D., April 16.—The republican convention Wednesday was one of the most enthusiastic in the history of the state, and in some respects it was the most interesting. Free silver was turned down. The delegates to the St. Louis convention were instructed to use all honorable means to support McKinley.

Colorado Democrats for Silver.

Denver, Col., April 16.—The state democratic convention declared for free silver. The platform which was unanimously adopted, deals with no other question but that of monetary issue and favors free coinage at the ratio of 16 to 1.

Dorchester, Neb., Has a Fire.

Lincoln, Neb., April 16.—More than half the business part of the town of Dorchester, a place of 700 inhabitants, forty miles west of here, on the Burlington, has been burned. The fire broke out shortly after midnight Tuesday, and destroyed four of the principal business buildings on the street. The fire is supposed to have been set by tramps. The total losses as estimated amount to \$34,350, and the insurance to \$21,100.

MURDERER ZUELKE SHOT AND ARRESTED

MARKESAN MAN CAUGHT NEAR
APPLETON.

Officer Garvey Shoots Julius Zuelke Perhaps Fatally—He Is Held to Answer For a Crime of Great Atrocity—His Visit to Appleton Leads to His Arrest.

Appleton, April 16.—[Special]—Julius Zuelke, who in the heat of argument murdered Ed. Davis in Markesan, a week ago Sunday, was shot and arrested near here today. He came to Appleton last night, and stayed at the Crescent House. Nobody knew him, but he left so early as to direct attention to him. Police were sent out in every direction, and he was overtaken by Officer Garvey at a railroad crossing a mile from town. "I arrest you," said Garvey. Zuelke covered the officer with a rifle, but before he could fire, the officer shot him twice—once in the arm, once over the heart. "They have caught me at last," was all Zuelke would say when placed in jail. He is likely to die.

To Choose Wall's Successor. Milwaukee, Wis., April 16.—A call has been issued for a meeting of the democratic state committee, to be held in this city on May 12. A chairman to succeed E. C. Wall, resigned, will be chosen and the date of the state convention will be fixed.

TWO WERE KILLED.

Disastrous Explosion of Fireworks at Grosse Point, Ill.

Wilmette, Ill., April 16.—An explosion in the main building of the Chicago National fireworks, located near Grosse Point, a small village one mile from this place and 14 miles from Chicago, at 8:10 o'clock Wednesday morning, resulted in the death of two persons and the serious injury of eight others. The dead are:

NICHOLAS BORRE, aged 16 years.

ANNIE BORRE, aged 17 years.

The injured:

Emma Simsky, aged 13 years; burned about face and hands. Will not recover.

Foreman Seavy, burned about the head and body.

Annie Kriscant, struck in the head and burned.

Rose Martini, burned about the head.

Katie Thalman, injured about the head and badly burned.

Charles Congdon, cut about the head and body and badly burned.

Charles Connorton, face and arms burned.

Charles Drew, color mixer; face burned.

At the time of the explosion there were nine persons in the building. Nicholas Borre was near the east wall, charging cannon crackers. In charging them they were set on ends and the detonating composition, composed of potash and antimony, was put into them with a small scoop. After the fuse was inserted in one the wad would be forced in with a wooden plug and a hollow mallet.

The jury at the coroner's inquest, brought in a verdict censuring the company for not keeping the gangways in the building clear so that in case of accident there would be a greater chance of escape. The company was also censured for not having a practical man for foreman.

FAMILY RIDE IN THE AIR.

Farm House in South Dakota Carried Away by a Windstorm.

Ipswich, S. D., April 16.—A severe hail and wind storm occurred Wednesday morning. The house of James Kinney, with his family, consisting of himself and five children, was taken up and scattered over the prairie. All were considerably hurt, one child fatally, it is feared.

Later advices show that there were two deaths and several injured north of here. Considerable damage was done at Cresbard, Millard and Burkemere. Several houses and barns were blown away. The residence of E. T. Evans, near Cresbard, was completely destroyed, killing his two children and badly injuring himself and wife. At Burkemere the Winona Mill company's elevator was demolished, and the Cresbard church was moved from its foundation.

Remedial Bill Withdrawn.

Ottawa, Ont., April 16.—At 11:30 Wednesday Sir Charles Tupper, in the house of parliament, rose to withdraw the remedial bill. He said he did so on the ground of obstruction. It would be necessary to go into supply today, and therefore the bill could not be further proceeded with.

Killed in a Railroad Accident.

Meadville, Pa., April 16.—A broken rail on the New York, Pennsylvania and Ohio railroad, near Geneva, Pa., Wednesday, wrecked the third section of freight train No. 82. Two men were killed and three others seriously injured. The dead are:

PATRICK KERR, engineer.

BURT ROWLEY, brakeman.

The injured:

Elmer Rush, fireman.

C. McFarland, engineer.

A. M. Weir.

All the dead and injured lived at Meadville. The loss was \$7,000.

BOSTWICK IS HIRED FOR ANOTHER YEAR

ETHICAL SOCIETY OF MILWAUKEE RE-ENGAGED HIM.

Some Opposition was Stirred Up By a Disquieted Director Who Wanted a Man "With a More National Reputation" But His Followers Were Out-Numbered on the Vote.

At a meeting of the Milwaukee Ethical society last night Morris M. Bostwick of this city was re-appointed lecturer for the coming year at a salary of \$1,000. The meeting was enlivened with several disturbing remarks, one member, Henry Campbell, charging certain others with "running things on the ward caucus plan," but a general spirit of good fellowship prevailed before adjournment. The meeting was called by fifteen members who were friendly to Lecturer Bostwick and who wished to have speedily settled an incipient campaign against him by a few members who wanted a lecturer of "a more national reputation." It was stated that with a membership of 300 there was an average of only forty persons at the Sunday lectures. On the other hand it was said that the membership was largely made up of persons who had joined because of interest in some of the sections, and who were not especially interested as yet in the ethical instruction, given in the lectures.

The opposition to Mr. Bostwick came from a small minority led by Director Henry Campbell, who after that vote selecting Mr. Bostwick for another year was cast, offered his resignation as director. The meeting being called for a specific purpose could not act on it, and he was urged to resign by J. M. Perelles, who said that it was adverse comment that made men and that the lecturer would benefit by having a man on the board willing to criticize him.

Mr. Bostwick, it was said, had labored without any certain understanding as to salary, except a verbal agreement with President C. M. Paine, by which he was to receive \$500 up to May 1. Of this he had been paid a fraction. When the final vote was taken the opposition marshaled only fourteen votes.

MR. SLIDELL CHIDES HIS FLOCK

The Former Janesville Pastor Reprimands His Milwaukee Congregation

The Milwaukee Evening Wisconsin has this to say about Rev. James Slidell, the former pastor of Trinity church: "Rev. James Slidell, rector of St. John's Episcopal church, has created something of a stir in his parish by taking the members to task for not contributing more liberally to the Easter offering. Last year the offering amounted to \$450, while this year it was \$200 less. In the parish paper Mr. Slidell characterizes the offering as 'a disgrace to the parish,' and 'a manifestation of the basest ingratitude we have ever witnessed.' During the Lenten season Mr. Slidell addressed a circular letter to each of the parishioners pointing out what had been done in the way of improvements during his pastorate and calling for a large contribution on Easter, to clear away the floating indebtedness of \$300 and to aid as much as possible in reducing the mortgage indebtedness of \$3,000. In the parish paper Mr. Slidell expressed the hope that the people would be more generous on Low Sunday, the first Sunday after Easter, but evidently the expectations of the rector have not been realized.

KELLY HAS BIG STRING OF HORSES

The Former Janesville Driver is Conditioning Twenty Four Flyers.

The New York correspondent to the Chicago Horse Review says: The largest string at Fleetwood is that in John Kelly's charge. He has twenty four of James Butler's horses in hand. Seven of these are two-year-olds by Direct and another is by Directum. Kelly thinks the best of the two-year-olds is the Directum colt out of the Antero mare, Rose Ludwig. He has gone an eighth in 16 seconds and is considered a bright prospect. Many of the others show promise of proving fast youngsters this year. One of the most attractive is the Direct filly Honey, out of Belle McGregor by Robert McGregor. Mr. Butler bought this one for \$2,500 at the recent Salisbury closing out sale, and she is very well engaged, being in the Review Stake and Kentucky Futurity. She showed a quarter last fall in 36 seconds. Of the older horses in the string Valteau 2:12 is the fastest by the record, and is well engaged for this year also. Kelly has a string of youngsters by Direct 2:05 at Fleetwood that are great goods. Kelly ought to ride in front in some of the colt stakes this season.

LIEUTENANT LEO ROONEY RESIGNS

Light Infantry Loses Its Second Officer in Command.

First Lieutenant Leo Rooney, of the Janesville Light Infantry, has resigned his commission, his resignation having been mailed to headquarters yesterday. Lieutenant Rooney has been connected with the National Guard for eleven years and has for five years worn a lieutenant's shoulder straps. He attained his rank by hard work and close attention to his duties and worked up from the ranks. He is the senior lieutenant of the First regiment, and there is only one lieutenant above him in the service of the state. The

LIEUT. LEO ROONEY.

Light Infantry owes much of its success to Lieutenant Rooney. He has missed only eight drills in his eleven years term of service, and it is doubtful, if any man in the National Guard has a better record for faithful attendance. He did much to keep the company together when its disruption was threatened, and his resignation will be a loss to the company and to the state.

NEW CITIZENS' CLUB IS FORMED

Janesville Women Will Work For Cleaner and Better Politics

The Citizens' club of Janesville was organized at All Souls church last evening, and officers were elected as follows:

President—Rev. V. E. Southworth. First Vice President—Mrs. M. E. Milmore. Second Vice President—Mrs. W. E. Claton. Secretary—Mrs. J. H. Haviland. Treasurer—Mrs. C. V. Kerch.

The object of the club is to study political science and to practice good citizenship, and it starts out with thirty-three charter members. Any person can join by signing the constitution and paying fifty cents. Fortnightly meetings will be held.

The organization of the club followed an address by Mrs. Emma Smith De Voe, the noted woman orator who spoke in her usual entertaining manner. Mrs. Helen Holmes Charlton of Brodhead, editor of the Wisconsin Citizen, the official paper of the Wisconsin Woman's Suffrage association, and Mrs. Jessie N. Luther of Madison, vice president of the State Woman's Suffrage association, also delivered addresses.

These officers constitute the executive board. A meeting of this board to plan for the ways and means of securing the largest possible co-operation of all the people in Janesville was held this afternoon at 4 o'clock at the Forest Park home of Mr. Southworth. The constitution is as follows.

ARTICLE I.—NAME. This society shall be known as "The Citizens' Club of Janesville."

ARTICLE II.—OBJECT. The object of the Citizens' club shall be to advance the study of political science and the practice of good citizenship.

ARTICLE III.—MEMBERSHIP. Any person may become a member of the Citizens' club by signing the constitution and paying the annual fee of fifty cents.

ARTICLE IV.—ELECTION OF OFFICERS. The officers of the Citizens' club shall be a president, two vice presidents, a secretary and a treasurer, and shall be elected annually, and shall constitute the executive board of the club.

ARTICLE V.—MEETINGS. Regular meetings for study shall be held every two weeks if possible. Public meetings shall be held as often as the interest of the work demands, and if practicable, mass meetings shall be held quarterly.

ARTICLE VI.—AMENDMENTS. The constitution may be amended at a regular meeting of the club by two thirds vote of the members present, notice having been given at the previous regular meeting.

LADIES PLAY WHIST AT THE LINE CITY

BELOIT CLUB CHALLENGES THE JANESVILLE WOMEN.

The Defi Has Been Accepted and the Game Will Be Played at that City in the Near Future—Can They Equal the Men's Record?

Now that the male whist players of this good town have twice defeated the Line City men, the question of whist supremacy has developed into a serious one, and the ladies of the two cities have become interested therein. The result of the talk has been a challenge to the Ladies Afternoon Whist club, of this city from the Ladies Whist club, of Beloit. The deft issued calls for a game to be played in the Line City in the near future, and the challenge has been considered and accepted. One of Beloit's well known ladies was in the city yesterday and the matter was talked over, but as yet no date of the meeting has been set. The local club expect to leave on one of the noon trains and they will be given a reception and tea in the Line City, returning home the same evening. The ladies composing the Janesville club are:

Mesdames—A. H. Barrington, W. G. Wheeler, H. S. Sloan, E. D. Tallman, V. P. Richardson, O. W. Bemis, L. A. Torrens, E. M. Hyzer, W. H. Judd, D. W. Watt, E. F. Carpenter, A. P. Burnham, H. A. Baker, S. B. Smith, H. V. Allen, J. B. Dearborn, A. L. Kavalaga, Mary Doty, M. G. Jeffris, C. S. Jackson.

TAFT IS DROLL AS MARK TWAIN

Lecture On the Luxembourg Will Be Entertaining As Well As Valuable.

"The Luxembourg" is the subject of Lorado Taft's lecture to be given under the auspices of the Janesville Art League. This lecture will be illustrated on a canvas twenty feet square by stereopticon views of the paintings and sculpture of the famous Luxembourg gallery. Lorado Taft is well known to Janesville people and many class him as an entertainer with Mark Twain, the late Bill Nye and other noted humorists. His wit is so subtle, delicate and original that his listeners often overlook the soundness of his art principles in laughing at his manner of stating them. At the Congregational church Monday evening, April 20th. Admission 50 cents; school children 25 cents.

INMAN TO OPEN PATENT OFFICE

Alderman Will Follow the Business He Was Formerly Engaged In

Alderman E. Ray Inman will open an office in the Sutherland block, as a solicitor of patents. This is not a new business to Alderman Inman, he having spent three years in that line of work at Milwaukee where he was connected with the well known firm of Irwin & Benedict. He understands the work fully and now has several cases in hand. The Gazette voices the sentiment of Alderman Inman's many friends in wishing him success in his "return to his first love."

Why Because

Do people buy Hood's Sarsaparilla in preference to any other,—in fact almost to the exclusion of all others?

They know from actual use that Hood's is the best, i. e., it cures when others fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacist who originated it.

The question of best is just as positively decided in favor of Hood's as the question of comparative sales. Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.

WARM PRAISE FOR SALVINI

The Milwaukee Sentinel Compliments the Great Actor

In speaking of Salvini who will be here tomorrow night, The Milwaukee Sentinel says: One would be hypercritical to take exceptions to Alexander Salvini's performance of Dumas' humorous conceit, full of battle and blood, oaths and swords, "The Three Guardsmen," which was revived at the Davidson theatre last evening in a manner to delight the house. How ridiculously would this play perform in less capable hands. The most modern melodrama sinks into insignificance compared with its story of plot and intrigue, of exploit and expedition; of sword and powder and of final victory, and yet how skillfully devised and carefully carried out by this master dramatist. In this play Dumas does not moralize nor attempt to analyze, but to give us incidents following one another in such rapid succession that the eye and head are kept constantly busy. Salvini appeared never to better advantage in the part than upon last evening and it seemed well high impossible that this dare-devil, rollicking Gascon youth, Philippe D'Artagnan, was being played by the same person who the night before gave us the melancholy Dane, in a style so entirely different by his performance of "Hamlet."

IMPORTANT TO SUFFERERS.

HOW YOU MAY OBTAIN A LASTING CURE FROM PILES.

No Surgical Operation, No Pain, Trifling Expense—A Simple, Harmless Remedy, But It Does the Work.

There are some people who have piles as frequently and regularly as other people have colds.

Any little bowel trouble will bring them on, any extra exertion, as in lifting, will produce them, and in fact will often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tendency is always to grow worse until the trouble becomes deep seated and chronic, or develops into some fatal rectal disease.

While there are many pile remedies which give relief, yet there is but one which not only gives instant relief but at the same time makes a permanent cure, and that is the well known Pyramid Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combine so effectively and act so promptly and thoroughly that it cures every form of piles whether itching, blind, bleeding or protruding.

In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical operation, and its advantages over an operation are many, as it is painless, causes no delay or interference with daily occupation and, last but not least, is cheaper than any surgical operation could possibly be, costing but a dollar a package at any drug store.

The cases that the Pyramid Pile Cure will not reach are so few that physicians are doing away with operations for piles and depending on this cheap but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with testimonials from every section of this country.

COUGHS AND COLDS.

ELY'S PINEOLA BALM is a sure remedy for coughs, colds, sore throat and asthma. It soothes quickly, shames the cough, and renders expectation easy.

CONSUMPTIVES will invariably derive benefit from its use. Many who suppose their case to be consumption are only suffering from a chronic cold or deep seated cough, often aggravated by catarrh. For catarrh use Ely's Cream Balm. Both remedies are pleasant to use. Cream Balm, 50 cents, per bottle; Pineola Balm 25c. Sold by druggists. ELY BROTHERS, 50 Warren St., New York.

GO INTO CAMP ON SATURDAY

Wisconsin Troops Will Avoid Traveling on the Sabbath.

The various companies of the Wisconsin National Guard will not go into camp on Sundays this year. On account of the objection on the part of several Christian denominational societies to the practice of traveling to Camp Douglas on Sunday, it has been decided to make a change this year and send the companies to camp on Saturdays. There is some doubt as to whether this will prove satisfactory. It is thought by some that it will result in greater desecration of the Sabbath than if the companies went into camp on Sunday when they would be under camp discipline. The general encampment order will be issued this week. The First regiment will go into camp, Saturday, July 4, and the Fourth regiment on Saturday, July 11. It has not yet been fully decided whether or not to have a week's intermission between the encampment of the Fourth and Second regiments. If there is not such an intermission, the Second regiment will go into camp July 18 and the Third regiment, July 25.

NOT LEAP YEAR, BUT HELPED.

Jack Was Somewhat Obtuse, and Then Too, He Was Going Away.

A young married woman, the wife of the private secretary of a western congressman, was one of a party the other evening talking about leap year, says the Washington Post. "I proposed to my husband," said she, "and it wasn't leap year, and I'm not a new woman." Every one was anxious to hear how she happened to do it, for she is a lovely woman of the womanly type, and the last one in the world to ever ask a man to marry her. Then, too, she was a belle and had hosts of admirers, any one of whom would have been glad to have won her.

"Why I don't know how it happened. You see, Jack had been very attentive to me for years, and every little while would tell me how much he loved me and ask me if I could care for him. I put him off, and then after two or three years he began to neglect telling me of his love. In the meanwhile I learned to love him and tried in every way to make him speak, but when he called he never wanted to see me alone and always tried to have some of the family about. When we were alone he was moody and silent, and no amount of sweetness on my part would bring him to another avowal.

"At last he called and said that he was going to Washington and that there was no use of his staying out west. There were no ties to hold him, and no one for whom he especially cared. I used my best efforts to dissuade him, and hinted in every way possible that he might expect a favorable answer if he would ask me to marry him. Jack said good-night to the people and I went to the door with him. We stood at the entrance some time and I tried so hard to bring him out, but no use. He spoke of no one caring for him and all that sort of thing. Finally he shook hands and he left. I saw him walk down the yard, and as he reached the gate I called to him to come back. I had seen him leave me forever in that minute, and could not stand it. When he came up the steps I said: 'Jack, I care for you a great deal.' The rest naturally followed and we were married in the spring."

Great Is the Telephone.

The Electric Review calls attention to the advance on the Boston market of Bell Telephone stock from 201 to 204, in connection with the announcement that the company is about to issue 5,000 shares of stock with which to further extend or improve its long-distance service. The rise of Bell Telephone, which is believed to have been from about 165 to its present figure, 204, in the last twelve months, and that, while its capital stock has been increased from \$20,000,000 to \$50,000,000, and continues to rise along with increased capitalization, testifies to the almost unlimited possibilities of the telephone in its extension of popular use.

Our Highest Structures.

The four highest structures in the United States are the Washington monument, the Pulitzer (World) building, Park Row, New York; the smokestack or chimney on Omaha and Grant smelter at Denver and the tower of the American Surety company's building, New York city. The first is 555 feet 5 inches, the second 375 feet 6 inches, the third 350 feet 4 inches and the fourth 306 feet 1 inch.—Waverly.

Reportorial Gush.

From the Lamont Observer: Given birth by the ruthless hand, without a doubt, of some vindictive incendiary, the hungry flames began their onward march of devastation in a shed in the rear of Peter Fishback's saloon an hour before daybreak last Sunday morning. Stealthily the demon crept toward the main building, the second floor of which was occupied by Mr. Fishback and his family. All was quiet within, where all slept, unheeded of the nearness of the unwelcome guest, which was with each moment's passing becoming fiercer and fiercer, as though it were filled with a fiendish desire to kiss in a kiss of death with its hot breath the innocent sleepers in the home so soon to be destroyed. The rear of the main building became a seething mass of flames, and still the sleepers knew not their danger. Breaking through the rear windows the hot and smoky torrent invaded the dwelling rooms.

BELOIT COUNCIL IS ORGANIZED.

The Old Officers Are All Re-Elected By The Aldermen.

Beloit's new common council was organized and the old officers were re-elected as follows: President, E. A. Day; clerk, G. B. Ingersoll; attorney, J. C. Rood; marshal, G. M. Appleby; health officer, Dr. O. W. Merriam. The fire marshal and various policemen will be appointed later.

READING ROOM OPEN AT BELOIT

Line City Women Establish an Auxiliary to The Public Library.

The Women's Federated clubs of Beloit have instituted a public reading room which will be opened this week. There is as yet no reading room in connection with the public library and will be greatly appreciated.

HOW IT WAS DISCOVERED.

Prof. Rontgen's New Photographical Power Due to an Accident.

Prof. Rontgen's discovery of the photographic power of the cathode rays was due to an accident, says an exchange. In experimenting with a Crookes tube, through which a strong current was passing but which was covered with a cloth, he happened to bring his hand between the tube and some sensitized photographic paper. Finding lines on the paper for which he could not account, he hunted for the cause and found that the bones of his hand had been reproduced by the rays from the tube. In repeating his experiments recently before Emperor William the Wurzburg professor explained that he had not yet solved the theory of the phenomenon and called the rays provisionally X rays. In the first experiments the rays did not reproduce objects hidden by solid matter thicker than one inch, but since then Rontgen is said to have obtained pictures taken through aluminum plates a centimeter and a half thick and also through two sets of books and at Pesth parts of the human body larger than the hand have been taken. There is no doubt about the genuineness of the phenomena discovered. Crookes' tube is simply a modification of Geissler's tube. It consists of an egg-shaped bulb of glass from which the air has been almost exhausted. At one end the positive current is brought into the tube by means of a fused platinum wire and a small disk-shaped piece of aluminum is placed at the end of the wire. On the lower side of the tube is the spot where a similar disk of aluminum receives the current which has been transmitted through the vacuum. Where the current enters is called the anode and where it leaves is called the cathode. These are otherwise known as the positive and negative poles and are often indicated by a plus and minus sign respectively. Prof. Crookes passed an electric current through this tube and it gave out brilliant phosphorescent effects, as usual in such cases. Near the cathode, however, was a small dark spot, all the more remarkable on account of the brilliant light around it. Prof. Crookes, investigating certain effects of bodies in the tube, such as a small Maltese cross of aluminum, found that some remarkable energy was manifesting itself there. This was the beginning which led up to Prof. Rontgen's discovery.

You May Defy the Danger.

There should be the fullest exposure of the grave danger now menacing the public in the numerous alum baking powders on the market. That alum in food is unwholesome is a fact as well established as that arsenic is a poison. Eminent scientists, by experiments upon both human beings and animals, have demonstrated it. Physicians everywhere aver it. Health Boards and legislatures have passed laws restraining the sale of alum powders, and making the use of alum in food a misdemeanor. Nevertheless alum baking powders represented as pure cream of tartar powders are for sale in almost every grocery.

Avoid every new baking powder until you have had it analyzed and proved it free from alum. Baking powders sold, either wholesale or retail, at a lower price than the Royal, are almost invariably made from alum, and should be avoided under all circumstances.

Safety lies in the use of the ROYAL BAKING POWDER. It is not only free from alum and ammonia, but its combination of chemically pure cream of tartar and bi-carbonate of soda is actually an anti-dyspeptic, promoting digestion and adding to the wholesomeness of the food.

THE MAN FROM BARABOO.

He Knows All About Whisky and Takes His Last Drink.

"Yes," said the man from Baraboo, with a gruesome glare in his liver-colored optic, "I've drank whisky for forty different years, in forty different states, and what I don't know about the ardent wouldn't intoxicate a dove; and, as to 'red-eye,' I claim to be a judge. Our city clergy make me thirsty with their cock and bull chestnuts about hell being paved with beer bungs and plug tobacco, but I don't believe it, they reason from a false base line. Hell may have been so smoky when they were there that they couldn't tell a bat from a beer bottle; but when it comes to talking about whisky, no one will say that old Tom don't speak from long personal experience. I generally keep a pretty fair jug in my skin, and I know pure rye from pure rot-sut, and I

tell you, boys, that every kind of liquor is just alike. They have many handles to the same jug, hey? I mean many names for the devilish broth, but it is, for a fact, all the same, and it makes no difference what's in it, or what devil stirs it up, it's all brewed or boiled for one and the same purpose, and that hellish purpose is to rob a man of his money, of his manhood, of his health, of his home, of his family, of his friends, of his Savior and of his soul. Some people call it 'liquid fire' but I tell you it is liquid crime, liquid murder, liquid pollution of innocence, liquid sorrow, liquid anguish, liquid damnation, and liquid despair.

"Yes, boys, I'll take just one more drink, and then I believe I'll quit."

THIS DAY IN HISTORY.

1614—Eugene Beaumais, marshal and viceroy, signed a convention with the allies in Italy, and the Napoleonic wars were ended till the Waterloo campaign. Eugene was the son of Josephine and formally adopted by Napoleon. After the divorce he remained loyal to the emperor and rendered important service in the Russian campaign, especially in covering the retreat. In relinquishing Italy he gave up the last hold of Napoleon upon the throne of Europe.

1862—France declared war against Mexico. A French army was already in Mexico when war was declared. It had landed with Spanish and English troops to demand reparation of losses and injuries inflicted upon foreign subjects during the revolutions. Spain and England settled by negotiations and withdrew their armies. Hostilities began at once, and in July the French occupied the City of Mexico. A regency was set up, then an assembly of notables, and finally Maximilian of Austria was crowned emperor. Being engrossed with civil war, the United States could not protest against this violation of the Monroe doctrine.

1890—Richard H. Mather, distinguished professor of Greek at Amherst college, died; born 1835.
1895—Day of destructive storms in the middle Atlantic coast states, especially Virginia, and also in England.
1894—General Oliver Lathrop Shepherd, U. S. A., retired, veteran of the civil war, died in New York city; born 1813.

The prohibitionists say they will poll 1,000,000 votes at the presidential election. Well, suppose they do; it will simply be throwing away that many. In Illinois the prohibitionists have declared for free silver, which is simply a gentle way of suggesting their willingness to let the democratic state central committee pay their campaign expenses.

There is at least one good thing about that joint debate between Secretary Hoke Smith and ex-Speaker Crisp. It enabled the newspaper paragraphs to give the overworked X rays a rest.

"Help me Billy, or I'm a goner," was the cry which carried H. C. W. Whitney to Washington, to advise Mr. Cleveland, with whom he had not been on speaking terms for two years.

Senator Daniel, the rabid silverite, and ex-Governor Russell, the uncompromising gold bug, were orators at the democratic birthday celebration at the tomb of Thomas Jefferson.

The willingness of Mr. Whitney that Mr. Cleveland shall be the democratic candidate again indicates the very low rating he gives democratic chances.

If one democratic ticket has no earthly show to win what system of mathematics can be used to figure out the chances of two democratic tickets?

Senator Tillman's general smashup with everything boom is filling the west with a smell of brimstone, but it hasn't scared any capitalist out of business yet.

Secretary Morton's already numerous enemies have been reinforced by a firm of Chicago seedsmen which claims to have been lied about by him.

After all there is more money in mining for "suckers" than in mining for gold, even in the Cripple Creek section.

The democratic party may have no outlook at present, but it will certainly have an outgo on the fourth of next March.

That non-partisan financial address of Secretary Carlisle's bears undeniable Cleveland remarks.

Important Methodist Conferences.
New York, April 16.—The last three annual conferences of the Methodist church which will be held previous to the meeting of the general conference on May 1 will begin this week in widely separated districts of the country. One will be the Troy, N. Y., conference; the second is the East Maine conference; the third is the North Dakota conference. With the completion of the work of these bodies will be determined whether the general conference will have to do with the question of woman suffrage as applied to the admission of women as delegates to that central and quadrennial assembly.Maceo a Gentleman.

Maceo is a veteran of the last Cuban rebellion, and a well-trained soldier.

AGAINST FREE SILVER

(Continued From Page 1.)

the country. If a mere doubt as to the kind of money we intended to use produced these distressing results, what think you would be the probable consequences of a deliberate determination upon the part of our people to adopt silver monometallism as a permanent system? It cannot be possible that in the closing years of the nineteenth century and in this great and free republic, the people themselves will imitate the bad example set by the corrupt potentates of Europe, who have made their names forever odious in history by debasing the money of their subjects and robbing the industrious poor of the just rewards of their labor. The greatest crime short of absolute political enslavement that could be committed against the workingman in this country would be to confiscate his labor for the benefit of the employer by destroying the value of the money in which his wages are paid."

THE TURN OF LIFE.

THE MOST CRITICAL PERIOD IN THE LIFE OF A WOMAN.

Experience of Mrs. Kelly, of Patchogue, Long Island.

There is no period in woman's earthly career which she approaches with so much anxiety as the "change of life." Yet during the past twenty years women have learned much from a woman.

It is safe to say that women who prepare themselves for the eventful period, pass through it much easier than in the past.

There is but one course to pursue to subdue the nervous complications, and prepare the system for the change. Lydia E. Pinkham's Vegetable Compound should be used.

It is well for those approaching this time, to write Mrs. Pinkham, at Lynn, Mass. She has the experience of years to aid her in advising. She will charge you nothing.

She helped this woman, who says:—"I have used Lydia E. Pinkham's Vegetable Compound in my family ten years, with the best results. Some time ago my daughter had catarrh of the womb, and it entirely cured her. I was approaching the "change of life," and was in a deplorable condition. My womb had fallen, and the bearing-down pains and backache were terrible, and kidneys affected.

"I began taking the Compound, and my pains ceased. I consider it the strong bridge between sickness and health, and recommend it to everybody I meet who needs it."—Mrs. L. KELLY, Patchogue, L. I.

THEY BROKE A RULE TO GET THE PICNIC

THE WOODMEN'S ACTION MAY BE ILLEGAL.

Claim Is Made that the Proceeding Was Not Exactly Regular in Locating the Next Gathering at Yesterday's Meeting—Railroads Will Do Much Advertising.

A surprise was sprung at the convention of the Modern Woodmen yesterday, when the date for next year's picnic was decided, and some of the members of the order claim that the action taken was illegal.

"This matter has always been settled at the picnic proper," said one of the leading members of Florence Camp to a Gazette reporter. "The rule has always been to locate the picnic while the gathering is in progress, and set the date at the delegate convention. All we expected to do yesterday was to set the date and were much surprised when the proposition to locate next year's meeting was made. Many of the delegates wanted the next gathering at Dubuque. Wisconsin and Illinois have both had it several times, and many of us wanted it to be held in Iowa this year. I think there was a combination between Sycamore, Ill., and DeKalb, Ill., to get the picnic for the latter city. Ideas differ as to the legality of the proceedings."

The visiting delegates were lavish in their praise of the way in which the local camp and the Janesville people generally, entertained them while here.

Railroads Will Boom It.

Janesville will now begin to reap the benefit of having the big picnic of the Modern Woodmen held here. Preparations are now being made by both the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul roads, for the booming of the big event. W. W. Heafford, the district passenger agent of the St. Paul road, and James Gibson, who holds the same position with the Northwestern, were in the city yesterday and stated that it was the intention of both companies to advertise the big event throughout the land. Thus the name of Janesville will be continually kept before the eyes of the people in this part of the country for the next seven weeks. Thousands of people who will not be here next June, will thus learn that this city exists, and 30,000 who will attend the gathering will know it by an actual visit. How much would this advertising be worth to a merchant? More money than you could put in a barrel.

And it's worth as much to a town.

Delegates Finish Their Work.

Late yesterday afternoon an answer to the telegram sent to Fulton, Ill., was received by the convention of Modern Woodmen and Wednesday, June 10, was settled upon as the date of the big picnic. Officers were elected as follows:

President—A. J. Fassett, Belvidere, Ill.

Secretary—A. W. Fisk, DeKalb, Ill.

Treasurer—John G. Davy, DeKalb, Ill.

The banquet and entertainment last evening was much enjoyed. The Amphion Quartette composed of William Garbutt, D. D. Bennett, J. H. Burns and George G. Paris rendered vocal music; Mrs. O. H. Brand recited; The Arion orchestra played; F. O. VanGelder, of Sycamore, Ill., Judge Brown of Wheaton, Ill., W. L. Pond DeKalb, Ill. and Prof. C. E. Nichols, of Maple Park, Ill., made addresses. A vote of thanks was extended to the Royal Neighbors for the banquet, before the adjournment.

THERE is no question of price to bother the purchaser of shoes at our store. That is done away with. If you find the shoe that fits you and its certain out of our immense stock you can do this there will be no trouble about the price. We say truthfully we intend closing out this entire stock in a very short time and if you want shoes there won't be any squabbling about price. Becker & Woodruff.

THE public is helping us wonderfully, and we are doing the same thing with the public. Our sale is progressing finely, and that means we shall be enabled sooner to settle up the affairs in the estate of the late L. H. Becker. People could afford to buy shoes for two years to come; the money saved is certainly an object. Becker & Woodruff.

MAY GET OPEN CARS FOR THE SUMMER

SUPT. CUMMINS WILL MAKE THE ATTEMPT.

They Could Be Placed On the Tracks the Company Now Have—Time Tables to Be Put On Bulletin Boards—Mr. Blabon's Son Here.

The Janesville street car line and equipment was thoroughly inspected today by Edwin L. Blabon of Philadelphia. Mr. Blabon arrived last evening, coming direct from the Quaker City. He is the son of G. W. Blabon, the principal owner of the road, and is here in the interests of his father. Mr. Blabon was at the power house this morning and stated that he was well pleased with the appearance of things and especially with Superintendent Cummins' plan of operation.

The receipts this week have been of an encouraging size and yesterday was the best day this season with the exception of last Sunday, which shows that the public appreciates the service.

An effort will soon be made by Superintendent Cummins to obtain open cars for the summer service. Although they are rather expensive, it is expected that cars without the trucks could be obtained and the trucks now in use could be put under them during the warm months. Another new idea is the placing on Main and Milwaukee streets and the ends of all branches, of bulletin boards on which time cards will be made out in plain figures, so that all who read may easily understand. Instructions to all motormen are that they are to pay particular attention to these time tables and run the cars accordingly.

Will Demand an Eight-Hour Day.

Ishpeming, Mich., April 16.—The upper Michigan mine workers, through their delegates in convention here, Wednesday, decided to demand an eight-hour work day. The vote was unanimous. It was agreed that the present conditions were unfavorable for making an immediate demand, owing to the overstocked condition of the ore market, and the supposed willingness of mine-owners to suspend operations, and it was decided to refer the duty of making the demand to the executive council with instructions to act as it sees fit. It is considered certain that the council will not order a strike immediately in an effort to enforce a demand for an eight-hour day. A member of the executive council said that it might be decided to hold the demand open for several months. If a strike is inaugurated, it will throw 40,000 men out of work, and cover the states of Wisconsin, Michigan and Minnesota.

HIGH SCHOOL TEAM IS TO TAKE PART

JANESVILLE ATHLETES ARE GETTING IN CONDITION.

Local Gladiators to Compete For the First Time In The Inter Scholastic Tournament in The Capital City—Contestants are to Be Selected Soon.

Janesville High School athletes will take part in the second annual Inter Scholastic athletic tournament to be held in Madison. It will be the first time the Bower City has been so represented, and the team will soon be selected. The meeting will take place at Madison within the next two months, and will be governed by the rules of the Amateur Athletic Union of America, and it is expected that all the principal public schools throughout the state will send teams, and the tournament will be given under the auspices of the Athletic Association of the University of Wisconsin.

A cup valued at fifty dollars will be given the school making the highest number of points, while appropriate banners will be given the teams winning second and third place. A special banner will also be awarded to the winners of the team relay race. The individual winners in each event will be given appropriate medals, while a special medal will be put up as a reward for the one breaking a last year's record. The contests include a 100 yard dash, 220 and 440 yard dashes; 120 and 220 yard hurdle races; one mile run; running high jump; running broad jump; pole vault; throwing twelve pound hammer; putting twelve pound shot and a mile relay race by teams of four.

HORSE CAUGHT UNDER SIDEWALK

An Acrobatic Runaway in The Second Ward This Morning.

Men had to pry up a sidewalk in Mrs. Clark's yard this morning, in order to liberate L. F. Holloway's horse, which had poked its head under the walk in such a way that it could not get up. The horse started to run at Mr. Holloway's residence. After galloping through the lot in the rear of St. Mary's church, and managing to escape collision with all the trees, it turned on Prospect avenue and started down the steep hill. When near ex-Mayor Thoroughgood's residence, the colt collided with a big tree, and the buggy was doubled up like a jack-knife. The shock threw the animal off its feet, and it slid along on its side for a distance of fifty feet, finally being stopped by its head becoming wedged under a sidewalk that was built slightly raised from the ground. Men were sent up from the Thoroughgood factory, to pry up the walk and free the horse.

DEATH ENDS EARTHLY WOES

Thomas Parker.

Thomas Parker, a well known resident of Janesville, died at his home on South Main street early this morning. Mr. Parker was a retired farmer, and for many years resided in the town of La Prairie. He was a native of New York state, and was a man of sterling worth. Besides a wife he leaves a son, Norman Parker, of La Prairie, and a stepdaughter, Miss Calla Parker, of this city.

The funeral will be held tomorrow afternoon from the residence at 1 o'clock, the interment to be at Emerald Grove.

Reassuring.
"I am firmly resolved upon it," he said, with the air of a martyr. "Society shall know me no more."
"But think," said the bright girl; "think how we shall all miss you."
"I can't help it. My pride will not permit me to be a guest when I can not entertain in return."
Her face brightened.
"Oh, then, I am sure you need have no hesitation, for, though you may not realize it, you entertain a great deal. I heard more than one girl speak of the jokes they had at your expense."—Washington Star.

He Liked Music.
"You like music, I understand?"
"Very much."
"Then you are very happy in the location of your flat."
"I am miserable."
"But that young lady next door plays all the time. If you enjoy music—"
"It is because I enjoy music that I intend to move out."—Chicago Evening Post.

The Eighth Wonder.
Mr. Winks—I see raising flowers for the manufacture of perfumery has become a new industry in Florida.
Mr. Minks (a perfumery manufacturer)—Flowers?
"Yes."
"For the manufacture of perfumery?"
"Yes."
"Well, wonders will never cease."—N. Y. Weekly.

Promising Youth.
With an extraordinary exercise of agility the baby thrust his toe into his mouth and then turned purple with blue.
"Look at that!" screamed young Mr. Newleigh, calling the attention of the rest of the family. "Don't tell me that boy ain't going to be able to make both ends meet."—N. Y. Recorder.

A Sure Sign.
"You want to keep quiet," said Johnnie to his sister. "There is company in the parlor."
"Who is it?"
"I don't know who it is, but I know there is company in the parlor, for I hear papa calling mamma 'My dear.'"—Texas Sifter.

The Difference.
"I'm very sorry that new reporter of ours so far forgot himself as to go and kill a man," said the editor of the Quosh Bugle to his assistant. "He had a great nose for news."
"He seems to have a neck for noose now," was the assistant's reply.—To Date.

A Biblical Test.
Binks—When I paid old Skinfint the dollar he cheated me out of, he immediately tested the silver with his teeth to see if it was genuine.
Winks—Well, don't the Bible say "thine enemy shall bite the dust?"—N. Y. World.

The Probability.
Mrs. De Bellew—What is the name of that tall, slender young woman over there by the mantel, Mr. Gruffy? Her name was Morse before she was married, but I cannot remember what it is now.
Mr. Gruffy—Remorse, likely. — Detroit Free Press.

The Limit.
Ragged Haggard (at the door)—Maddim, may I trouble you for suthin' to eat?
Lady of the House (threateningly)—I'll call the dog if—
Ragged Haggard (with dignity)—Thank ye, but I never eat dogs.—Truth.

WHO GETS MONEY FOR JUDGING ADS

LIVELY CONTEST AMONG READERS OF THE GAZETTE.

Crisp Greenback is waiting for the person who picks out the best advertisement from the Gazette each day in April—Conditions of this offer.

A strong demand for back numbers of The Gazette has been created by the prize advertisement contest.

Ten dollars can't be earned easier than by selecting the best advertisement in the Gazette each night and mailing them to The Gazette office May 1.

As long as back numbers hold out complete files can be furnished.

The idea of the advertising competition has come to be pretty well understood. It is this:

In every issue of The Gazette there appear a good many pretty good ads and a good many pretty poor ones.

The good ones bring profit to the advertiser and cause his face to be wreathed with smiles.

The poor ads cost just as much, but produce less result, and induce a loss of faith in the value of advertising.

This is all wrong!

We want more GOOD advertisements.

The way to make a good advertisement is to try to make a good one—try hard.

To encourage good advertising The Gazette inaugurates this friendly contest.

The \$10 bill goes to the reader who selects the best display ads that appear in The Gazette during April—one each day.

These are the conditions:

One display ad. is to be clipped from each issue of the Daily Gazette for April and marked with voter's name and the date of issue.

The bunch of advertisements—one from each issue in April—are to be mailed to the Gazette before 6 p. m. Saturday, May 2.

Voters may prepare more than one list if they choose.

The best ad. for each day will be determined by clipping the ballot sent in at the end of the month. No ad. is to appear twice in one list.

The contest is confined to display ads—not reading notices or locals. Janesville ads only.

Size, the typographical beauty and verbal cleverness are not the essential qualities. The "best ad" under the terms of this contest, is the one that seems likely to draw the most business.

No matter if the wording be clumsy and the typography poor, the ad. that brings results, is the best ad. of the world over.

The ad. that makes a hundred people say "That's a fine ad." is good, but the ad. that makes a dozen people buy, is better.

Read these conditions carefully, subscribers and non-subscribers, and get your scissors ready.

Facts about the Presidents.

All but one of the presidents—Buchanan—married. All but one—Cleveland—were married before they were elected president. Cleveland was the only president married in the white house. Two presidents—Tyler and Fillmore—married twice. Five—Washington, Jefferson, Madison, Jackson and Fillmore (the second marriage)—wedded widows. Another curious presidential coincidence is found in the fact that two presidents—Jackson and J. Q. Adams—were born in the year 1767 and two—Grant and Hayes—in 1822. Jackson succeeded Adams and Hayes followed Grant.

It Did Not Work.

A rich farmer in Michigan is down on the national administration, and he has let a large flock of his sheep perish from exposure and want of food to prove it. He was arrested by agents of the Society for Prevention of Cruelty to Animals, and pleaded in his own defense "the Democratic administration has so depreciated the value of wool and sheep that it is cheaper to let the animals die than to provide for them." The court would not listen to the political side of the case and fined the farmer \$50.

A GREAT BOOK FREE.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work and ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

C. C. McLEAN PURCHASES TWO VEHICLES.

The within cut represents the "LONSDALE" half platform gear carriage purchased today by C. C. McLean from F. A. Taylor, Mr.

McLean found his present large equipment insufficient to accommodate his increasing trade, so decided to buy the above together with a light canopy top rig known as the "WINDSOR SURREY." It may be interesting to patrons to know something of the "LONSDALE" carriage. This rig is very handsome in appearance and designed especially for comfort. The top is built sufficiently high so that the tallest person can have clear view from side. It has solid hand carved body with genuine gold leaf stripe; is upholstered with best curled hair and trimmed with 18 oz. English wool dye cloth and is really a palace on wheels. The Surrey Wagon is of same quality only much lighter. Both were designed by the Henney Buggy Co.

F. A. TAYLOR.

HO! FOR MISSOURI.

There is certain to be a decided activity in the sale of Missouri farms this year. During the last six months inquiry for improved farms in Missouri has been greater than ever before. There is no part of the West where more inviting prospects abound for the farmer, and but for the hard times all over the country there would be an actual boom in Missouri. The farmer who is looking for perpetual summer and never failing deposits of moisture, land that will raise abundant crops, and other Eden-like conditions, which everybody would like to have, will search in vain for those conditions, but if he will stop in Missouri and settle down to business he can approach nearer to his ideal than he can anywhere else in the Union. It has been the experience of Missouri farmers, that they have had as many blessings of Nature and as great a degree of prosperity as those of any other section of our great country. Missouri no longer turns the cold shoulder to home seekers. There is not a nook or corner of the state where the security of property, now, is not as well assured as in any other state in our land. Taxes are generally very low, and very much lower than they are in Wisconsin. Political opinions are no bar to the enjoyment of every right of citizenship. Sure crops, ample transportation for all products of the soil, convenient markets, cheap fuel, mild climate, abundance of timber of all kinds, pure water, nutritious grasses, blue grass pastures, and above all her vast crops of all kinds of fruits are among the advantages to the farmer. No state or locality leads MISSOURI in the production of fine fruits. Not even France or Spain, with their vast vineyards, have any advantages over Missouri in fruit-growing. In four years' time we have sold over \$300,000 worth of improved farms in Missouri. We are now prepared to sell improved farms, in thickly settled locations with lands as good as any in Wisconsin, at from \$20 to \$40 per acre. We can furnish excursion rates to Macon, Mo.

We have A MOST BEAUTIFUL FARM of 800 acres right at a station of 3000 inhabitants on the Santa Fe railway, in Lin Co., for sale at \$35 per acre. The buildings and improvements on this farm cost over \$12,000. Can give time on two-thirds of price at six per cent interest.
